CUSTOM PLAN DESIGN

CUSTOM HOME PACKAGE- KIT

CONSTRUCTION
MANAGEMENT

BETTER, CHEAPER AND FASTER WAY TO
BUILD YOUR CUSTOM HOME

All our custom plans and designs include full structural engineering, roof trusses and floor system engineering. Mechanical plans and engineering.

Ontario or Quebec stamps required to obtain permits.

Completely customized and personalized to your wishes, including custom materials as needed.

Our kits are all-inclusive, with no surprises, and feature our own unique **R-32 Paragon Wall** system for superb energy efficiency.

Our kit **features** pre-engineered wood for the structure of your home, engineered posts and beams and the option of custom hybrid timber.

Construction Management

- Site Preparation
- Supervision & Inspections
- Self-Builder
- Safer Budget & Cost Control

-Our process eliminates the general contractor. GC's make a profit on everything related to your project, from the simplest piece of lumber to the most expensive plumbing fixture. By eliminating the GC, we eliminate unnecessary costs, thus freeing up your budget.

BETTER: **Design & Construction**
CHEAPER: **Eliminates contractor profit**
FASTER: **Materials on Site When Needed**
